Introduction

Welcome to the third edition of Kennedys' motor prosecution guide.

Being involved in a serious collision can be a traumatic and often life changing event. This guide explains the process following a motor accident involving serious injury or death. It provides a step-by-step guide on what to expect and what to do, from the scene of an accident through to criminal proceedings.

Kennedys' motor prosecution team is highly experienced in representing drivers. With national coverage across our network of offices, our lawyers provide specialist advice immediately after a collision and during any subsequent proceedings. On behalf of the team, we hope you find this guide helpful.
